Explanation of the Puppy Preference Form (or Survey)

We have found that many people are looking for a dog with specific characteristics. Some characteristics are very important to people, others are negotiable, and some are insignificant.

We strive to better understand your preferences and match you with a puppy that fits your specific needs and desires. The farther ahead you plan, the better we can assist you. Please remember that many of our puppies are spoken for 2-6 months before they are ready to adopt.

The more specific you are, the easier it is to eliminate litters that will not work for you, but it also means you may have to wait longer for your perfect puppy. If you are very particular, there may be only one or two litters per year that will be a good match for you. If you are more open, we can probably get you your puppy much sooner.

I encourage you to look on our website under "Breeding Dogs" to find an adult female and male dog that best represent your ideal dog, since the combination of dam and sire for each litter tends to produce a blend of temperaments and other characteristics in their offspring.

In the 2018-19 we hope to produce 20-30 litters. Realize that it is our goal to find two or more litters that will fit your desired criteria. We ideally will choose more than one litter for you, because not every breeding produces puppies and we don't want you to wait 1-6 months and then find out that we don't have a pup for you.

By taking the time to fill out the below survey, you will more clearly define what you are looking for in a dog, and you will help us to direct you toward the litter that best fits your needs. On our website is an explanation of how the puppy picking process works.

We reserve 1st and 2nd pick in all color and gender combination in all litters generally until the pups are sold. The priority of these high pick pups is for the following purposes: 1) MMK breeding stock, 2) Training clients, 3) Clients who are purchasing breeding rights for their pup. If you fit in one of these categories make sure that is clear on your puppy preference form. MMK reserves the right to grant first or second pick to whomever it wishes, for a variety of different reasons.

We sell all puppies with a limited registration, which means you will not be able to register their off-spring without our permission. If you would like to buy a puppy with a unlimited registration, the price is \$800 in addition to the cost of your puppy. It will also require that you sign an agreement to get your dog's hips, elbows, eyes tested, and that you do some

genetic testing to assure your dog is free from EIC, PRA and CNM. We will help you through this process if necessary. If you chose to use Marble Mountain Kennels as your breeding partner, we will forgive 50% of this cost in the first partnership litter. When MMK partners with a client in a breeding we assume 50% of the costs and expect 50% of the profit. We also manage the breeding and the sale of the pups. (Ask for more information if you would like to consider this option).

Puppies are reserved by sending (via email and snail mail) either a Puppy Reservation Form or a Puppy Preference Form (questionnaire), along with a \$300 non-refundable deposit check. To make an immediate reservation, mail the document and photo of your check to both pete@mmkennels.com and julie@mmkennels.com . This will hold your reservation for 10 days, while we wait for them to arrive in the mail. It is always a good idea to hold onto a digital or hard copy version of your completed documents.

If a customer is reserving a puppy in a litter not yet born, the customer may cancel the reservation and a refund of the deposit may be permitted, based on the discretion of Marble Mountain Kennels. Once the pup is born, however, a commitment will be confirmed, and a refund should no longer be expected. Once again, deposits are non-refundable for puppies already born.

If you are already confident of your litter choice, you can skip the Puppy Preference Form and move down in the below document to the Puppy Reservation Form.

Thank you very much for your confidence in our breeding program,

Pete Morrill

***TRAINING:** We charge \$1000 for our 6-week “Super Citizen” basic obedience program and \$900/ month for advanced training. These options allow you to have a little higher chance of getting a first- or second-pick pup, if it becomes available. Also, if you have your puppy’s training starting at 8 weeks old in our Super Citizen program, we will likely complete all vaccinations (except rabies) and worming requirements for your pup (a value of about \$200).

****UNLIMITED REGISTRATION for BREEDING:** Getting an unlimited registration costs \$800 more and requires that you agree to obtain all necessary health checks before breeding. This option may allow you to potentially have a higher chance of getting a first- or second-pick puppy, if available. Furthermore, MMK sometimes agrees to partner with selected clients in breeding arrangements. In these cases, 50% of the breeding price is refunded.

Unless otherwise specified, I agree that I will be given a limited (non-breeding) AKC registration and will agree to get my dog fixed prior to its 2nd birthday.

I agree with the conditions stated above in the Puppy Preference Form and understand that my deposit check is non-refundable. Electronic signatures are permitted.
